Hiring Manager
Martin, White, & Griffis
3501 East Speedway Boulevard, Suite 225
Tucson, AZ 85716

Dear Hiring Manager,

I have a passion for innovative projects and am keenly interested in working for your company. I recently moved to Tucson for my wife to start medical school, and I often admire the firm's work as I take her to the University of Arizona Health Sciences Innovation Building. The structural expertise exhibited convinces me that Martin, White, & Griffis is somewhere I could develop and thrive as an engineer.

In 2016 I earned my Master of Science in Structural Engineering degree from the University of Washington, specializing in seismic analysis and design of steel and concrete structures. With almost 4 years of qualifying experience, I intend to obtain a California Professional Engineering license as soon as I am able.

My primary engineering experience took place with Magnusson Klemencic Associates (MKA) where I worked with a team of three to five highly skilled engineers designing high-rise residential and office buildings such as One Chicago Square. I received extensive in-house training, particularly in the design of concrete systems.

A distinctive strength of mine beyond design and construction administration skills is that I excel as a team player. I have been able to connect with people from a broad range of personal and professional experience, and intentionally invest in developing strong, trusting relationships. I consistently seek feedback and constructive criticism as I believe it is through mutual support and learning from my peers that the team is built into a stronger unit and I also grow as an engineer.

With my exceptional training from MKA and my team-oriented outlook, I am confident that given the opportunity I would become an asset to Martin, White, & Griffis, a company with whom I would be proud to be associated.

I would appreciate the opportunity to interview with you at your convenience and hope you will give my resume your favorable consideration.

Sincerely,

A handwritten signature in black ink, appearing to read 'David Hanson', with a stylized, cursive script.
